Net sales were 14.6\% higher than last year. Sales growth reflects a price and mix contribution of $8.2 \%$, which follows the pricing initiatives taken during the year, lower promotional activity and better mix. Volume grew $6.4 \%$ as most categories posted improved performance, reflecting the strength of our brands and a better consumption environment.

All our businesses grew. Consumer product revenues increased 13.8\%, professional $28.0 \%$ (including the away from home business which grew 13.5\%) and exports 4.4\%. Professional includes additional wadding sales from the startup of the tissue machine last year. Categories considered to have great growth potential continued to outperform.

Gross profit in the quarter increased $22.1 \%$ and margin was $38.3 \%$. This reflects several positive factors: i) higher volume performance; ii) increase of selling prices; iii) lower raw material costs in dollar terms of several inputs; iv) lower energy costs; and v) savings of Ps. $\$ 300$ million during the quarter from our cost reduction program. These positive effects offset the significant depreciation of the peso, $26 \%$ year over year.

Operating expenses as a percentage of sales were 20 basis points lower, at $16.5 \%$, as we maintain our lean operations and continue to invest effectively behind our brands.

Operating income grew 29.8\%, while margin was $21.8 \%$.
Cost of financing was Ps. $\$ 228$ million in the third quarter, compared to Ps. $\$ 242$ million in the same period of last year, reflecting the benefit of a lower exchange loss and higher interest income that fully compensated the increase of interest expenses.

Net income increased 36.5\%, following the performance at the operating level, a lower cost of financing and a stable effective tax rate. Earnings per share for the quarter were $\$ 0.34$.

EBITDA rose $24.8 \%$ to Ps. $\$ 2.2$ billion in the quarter, and margin was $27.1 \%$.
During the last twelve months, we invested Ps. $\$ 1,553$ million (Ps. $\$ 1,251$ million in Capex, and Ps. $\$ 302$ million in our share buy-back program) and paid Ps. $\$ 4,480$ million in dividends to our shareholders.

In dollars, under US GAAP, net sales decreased $7 \%$ in the quarter, and operating profit and net income increased $9 \%$ and $19 \%$, respectively.

As of September 30 the company held Ps. $\$ 9.8$ billion in cash and equivalents.
Total net debt (hedge adjusted) as of September 30, 2015 was Ps. $\$ 7.9$ billion, compared to Ps. $\$ 9.2$ billion at December 2014. Long-term debt comprised $88 \%$ of the total and all debt was denominated in Mexican pesos.
