## Kimberly-Clark deMéxico,S.A.B.deC.V.

April 19 ${ }^{\text {th }}, 2012$.

## Highlights:

- Financial results under IFRS
- Quarterly record in net sales, 8 percent higher.
- Increased market shares.
- EBITDA 3 percent higher (excluding non-recurring expenses)
- CAPEX of more than $\$ 1,000$ million pesos in the last twelve months.
- Completed Evenflo acquisition.

## SELECTED INCOME STATEMENT DATA

Prepared in accordance to IFRS
Millions of pesos except earnings per share

|  | Quarter ended March $31^{\text {st }}$. |  |  |
| :---: | :---: | :---: | :---: |
|  | $\underline{2012}$ | $\underline{2011}$ | $\underline{\underline{\%}}$ |
| NET SALES | \$7,166 | \$6,650 | 8 |
| OPERATING PROFIT | 1,468 | 1,488 | (1) |
| NET INCOME | 931 | 959 | (3) |
| EARNINGS PER SHARE (Pesos) | 0.30 | 0.30 | - |
| EBITDA | 1,856 | 1,829 | 1 |

Excluding non-recurring expenses due to Evenflo acquisition:

| OPERATING PROFIT | 1,496 | 1,488 | 1 |
| :--- | ---: | ---: | :---: |
| NET INCOME | 949 | 959 | $(1)$ |
| EBITDA | 1,884 | 1,829 | 3 |

We had good first quarter results, with a significant improvement versus the trend reported in the last quarters of 2011. When compared to the first quarter of last year, which was the best quarter, our net sales grew 8 percent, operating profit grew 1 percent (excluding non-recurring Evenflo acquisition expenses) and EBITDA grew 3 percent (excluding the above mentioned expenses).

The 8 percent net sales growth was driven by higher volume. Our consumer business grew 5 percent behind our strategy to incentivize consumers, increase volumes and gain market shares, which resulted in growth in most of our categories, with particularly strong increases in household products and wet wipes. In addition, our export and professional businesses posted important
growth rates and Evenflo also contributed with incremental sales in February and March.

On the cost side, some raw materials have shown a decreasing trend in dollar terms, but many, particularly oil derivatives, are higher than last year, and most raw material costs were affected by the year over year depreciation of 9 percent on average. Also, distribution and energy costs impacted our results.

Because of these impacts, which were partially offset by higher operating efficiencies and our cost containment and reduction programs, we had a 3 percent EBITDA growth. During the quarter we generated $\$ 1,856$ million pesos of EBITDA and sequentially increased our margin by 100 basis points. Net income was affected by a higher effective tax rate.

In the last twelve months we made investments of $\$ 1,656$ million pesos ( $\$ 1,041$ in capital expenditures (CAPEX) and $\$ 615$ in the re-purchase of stock), and we paid a dividend to our shareholders of $\$ 3,607$ million pesos.

As of March 31, 2012 the company had $\$ 3,100$ million pesos in cash.
As previously communicated, on January 31, 2012 KCM acquired the Evenflo feeding accessory business from Evenflo Company Inc. This acquisition is in line with our strategy of pursuing new growth opportunities.

Under US GAAP, quarterly results were as follows: net sales flat over last year; operating profit was down 9 percent; and net income decreased by 10 percent. These results were significantly affected by the depreciation of the peso.

As of March $31^{\text {st }} 2012$, and as reported in the financial statements, the company has one derivative financial instrument as a hedge to reduce the risk of the effects of its exposure to interest rates. Its effect on the financial statements is not expected to be material.

## Additional Financial Information

In order to facilitate a better understanding of ongoing KCM results, attached are our 2011 quarterly results prepared under International Financial Reporting Standards (IFRS). This information is a quarterly breakdown of the information provided in note 14 of our annual audited financial statements.

The main effect is on EBITDA and operating profit because of the recognition of the employee profit sharing as a cost and an expense.

In addition, there is an increase in the depreciation as a result of a revaluation of the assets.
